

FIRST RESPONDERS NEEDED!

FIREFIGHTERS & EMERGENCY MEDICAL TECHNICIANS

**We are looking for team-oriented providers for our Fire / Rescue division.
EMT, EMR, and Firefighter positions are available.**

Job Description:

You will be in a fast-paced environment where seconds count! You will be part of a 2-6 person team during racing operations and respond to all emergencies, from high speed car crashes to simple medical emergencies. You will be required to initiate and maintain proper medical care of patients, while following basic life support protocols as outlined by the Maryland Institute for Emergency Medical Services. Use of appropriate infectious disease control measures and decontamination procedures when handling patients is required. You will perform firefighting and vehicle rescue tasks where structures and operations present special and unusually difficult situations.

When you're not saving lives or fighting fires, you will be working as a track official performing other essential tasks. Some of these include, but are not limited to- operating an ATV, providing drivers with the printout of their race and assisting in cleanup of loose debris left by race cars. Tasks vary by race and situation.
